

ROOSEVELT IS THE TALK OF ALL EUROPE AND HE IS MUCH PRAISED

Paris Papers Comment at Length on the Affair in Rome—Carriage Drive Is Aban- doned Just in Time to Escape Some Heavy Rains

Genoa, April 9.—Col. and Mrs. Roosevelt had cause to be glad today that the crowds encountered forced them to abandon their carriage drive yesterday, for since morning rain has fallen in torrents and had the two not reached here last night they would have had difficulty in getting through today.

This afternoon they will leave for Point Maurizio, where Kermit and Miss Ethel are due to arrive tonight. The former President and Mrs. Roosevelt spent the morning hours visiting the art galleries, the old Palace of the Doges and other places of interest.

Paris, April 9.—As the date of Mr. Roosevelt's visit to France draws nearer, the leading newspapers devote much space to the former President's personality and movements.

The Figaro today lauds Mr. Roosevelt's energy, versatility, democracy and honesty and at the same time prints a review of his visit to Rome in which the opinion is expressed that his conduct offered a striking proof of his tolerance and high sense of honor.

"It is easy to understand," says the paper, "that many Americans consider the attitude of the Vatican which prevented their great compatriot from doing an act of courtesy to the pontiff as an offense against their patriotism and their country."

The Matin, pursuing an investigation of what it terms the "inside of papal intransigence," says some ecclesiastics feel that Cardinal Merry Del Val acted in accord with Cardinal Gibbons and other prominent American Catholics with the secret object of preventing Mr. Roosevelt from winning new prestige in the eyes of American Catholics through a papal audience.

Vienna, April 9.—Emperor Francis Joseph is interesting himself actively in Mr. Roosevelt's coming visit to the capital, with a view to making sure that his stay shall be as pleasant as possible. He is in constant communication through court officials with the American embassy in Rome as to the former president's plans.

Today the emperor sent a court officer to the embassy with the information that carriages would be placed at the disposal of the Roosevelt party during the whole period of their visit in Vienna and that the royal boxes at the Imperial Opera House and the court theatre would await their occupancy.

Those conversant with the investigation say the commission will cost the city only about \$100,000, and the new form of government, it is claimed, would save the municipality the size of Pittsburg about \$2,700,000 a year.

MEASLES IS ASSOCIATED
WITH SPRING CLEANING

Chicago, April 9.—The advent of spring, the period of house cleaning and measles are associated in the mind of Miss Gertrude E. English, district superintendent of Chicago schools. She reported yesterday that an epidemic of measles was following a winter epidemic of scarlet fever, and that about four hundred children, an average of ten for each school, were "laid up."

"I always find that measles come about the time of spring housecleaning," Miss English declared. "That is the time when dust and germs get stirred up."

FRAUD IN TIMBER

OLYMPIA, WASH., April 9.—The legislative investigating committee's report to Governor Hayes yesterday states that for years purchasers of state timber lands have systematically plundered the state through the laxity, incompetency or dishonesty of employees of the state land department. Nearly 200 cases the report says, have been found thus far in which the state inspector made erroneous reports of the amount of timber cruised. The evidence collected by the committee will be turned over to the attorney general with recommendations that he take prompt steps to recover the money due to the state.

Goldfield HAS A FIRE

Mill of Goldfield Con.
Damaged Quarter of
Million Dollars

Goldfield, Nev., April 9.—The \$500,000 mill of the Goldfield Consolidated Mines company was damaged by fire to the extent of a quarter of a million dollars last night. Following an explosion in the refinery, where over half a million dollars in bullion was stacked for shipment, the fire spread to a huge conveyor that carried the flames to the sampling department and stamp batteries. At 2 o'clock this morning the fire was gotten under control.

A shutdown of sixty days will be entailed.

WORLD'S MARKETS

STOCK OPEN WEAK
BUT DEVELOP SUPPORT

New York, April 9.—Stock prices ranged lower in the opening dealings today, only a feeble demand meeting the considerable offerings. Amalgamated Copper, National Lead, General Electric and National Biscuit, and American Smelting Union Pacific and Atchafalpa large fractions.

The announcement of further gold exports was followed by active selling of stocks, many of which are not dealt in usually were weak. Prices had recovered a fraction by 11 o'clock.

The market closed irregular. There was a covering of shorts among the traders which caused a recovery rather more than the first hours decline. The approach of the week end found operators disinclined to leave contracts open. United States Steel was carried 3/4 over last night and Great Northern pfd. and Rock Island pfd. 1/4.

The recovery halted before the end of the session.

BANK STATEMENT

New York, April 9.—Following is the bank statement:
Loans, \$1,242,278,600; decrease \$9,271,800.
Deposits, \$1,277,564,200; decrease, \$224,600,900.
Circulation, \$48,390,000; decrease, \$107,500.
Legal tender, \$47,814,200; decrease, \$625,100.
Specie, \$265,807,500; decrease, \$5,158,200.
Reserve, \$312,342,700; decrease \$9,971,000.
Reserve required, \$306,891,05; decrease, \$5,615,225.
Surplus, \$6,530,600; decrease, \$1,276,000.
Total deposits, \$1,277,564,200; decrease \$9,971,000; decrease \$416,735.

Chicago Livestock.

Chicago, receipts estimated at 200; market steady. Hogs 5.60a5.65; Texas steers 5.00 8.40; western steers 5.00a5.30; stockers and feeders 3.90a4.65; cows and heifers, 2.80a3.10; calves 7.00a8.25.
Legal receipts estimated at 5,000; market 5a10c higher. Light 10.20a10.60; mixed 10.30a10.65; heavy 10.35a10.65; rough 10.35a10.45; good to choice heavy 10.45a10.65; pigs 9.85a10.30; bulk of sales 10.50a10.60.
Sheep, receipts estimated at 1,000; market steady. Native 5.50a5.25; western 5.00a5.25; yearlings 7.30a8.75; lambs, native 7.50a9.50; western 8.00a9.50.

Chicago Produce.

Chicago, April 9.—Wheat—May, 112 7/8@113; July, 106 3/8@106 1/2; September, 103 3/8.
Corn—May, 58 5/8; July, 61 3/8; September, 52 5/8@62 3/4.
Oats—May, 41 1/4; July, 40; September, 37 3/8@38.
Pork—May, \$24.12 1/2; July, \$24.27; September, 23.92 1/2.
Lard—May, \$13.62 1/2; July, \$13.17 1/2; September, \$13.05.
Ribs—May, \$13.27 1/2; July, \$13.00.

Metal Markets.

New York, April 9.—The metal markets were quiet today and prices particularly nominal in the absence of exchanges today. Tin was dull at \$32.80@33.05. Local dealers quote

that made a specialty of manufacturing instruments for the purpose of deceiving the public, a favorite scheme among the bands in the city parks was the introduction of the "second bass drum." At first the drum had merely a hole in the frame work and was used to carry the hunches of the bandmen. Then a bright idea struck the maker and the drum was built so as to hold in separate compartments Frankfurters, sandwiches and beer.

Then the bass horn, on similar style, was perfected, with automatic stopper, guaranteed to hold four gallons of liquid refreshment. The ordinary allotment, it is said, was two horns and a bass drum to a band.

TRIUMPH OF DR. HYDE

Kansas City, April 9.—Two hundred names from the jury wheel were drawn today from which to select a jury to try Dr. B. C. Hyde, on the charge of murdering Col. Thomas H. Swape.

The trial is set to begin on Monday next. It is believed that a week will be secured in securing 12 men to try the case.

Chicago Produce.

Chicago, April 9.—Butter, steady; creameries, 26a31; dairies, 28.
Eggs—easy, 18a20 at mark; firsts 20 1/2; prime do, 21 1/2.
Cheese—steady; young Americas, 14 1/4 1/4; daisies 14 1/2.
Sugar and Coffee.
New York, April 9.—Sugar, raw, weak; Muscovado, 28c; centrifugal 32c; molasses 36c. Refined steady.
Coffee, spot, quiet, No. 7 Rio, 8 1/2a 5-8; No. 4 Santos 9 1/4.

HEAVY FAILURE OF A PROMI-
NENT DEMOCRATIC POLITICIAN

San Francisco, April 9.—Nathan Cole, Jr., prominent promoter and Democratic national committeeman, has filed a voluntary petition in bankruptcy in the federal court here. His liabilities are said to aggregate \$330,000, with assets at less than \$8,000. That amount, however, is stated to be unavailable for general creditors.

Although the petition was filed on March 27, the fact was not revealed until southern California creditors were officially notified that the Union National bank of Pittsburg and the Crocker National bank of San Francisco are named as Cole's heaviest unsecured creditors.

COAL FIELDS
OF ALASKA

Mineral Expert of the
Government Favors
Opening Them

Washington, April 9.—More testimony concerning the value and extent of the coal in the fields of Alaska and a further cross-examination of Andrew Christensen regarding the twenty-four letters, which are alleged to have been concealed by Glavis following his dismissal from the service, confronted the Ballinger-Pinchot investigating committee when it met this morning.

Alfred J. Brooks, mineral expert of the geological survey, was on the stand when adjournment was taken yesterday afternoon. Mr. Brooks strongly favors the opening of the Alaskan coal fields and declares the territory is retrogressing as a result of the government's policy of withholding the coal lands.

Before going into public session, the committee opened the famous Glavis box from Seattle in which, Andrew Christensen explained, he found the twenty-four missing letters.

Mr. Brooks continued his testimony. He related that the United States controlled from sixty to seventy per cent of the world's visible supply of coal and that at the present rate of consumption it would require 493 years to exhaust the supply in the United States. These figures were arbitrary, the witness said.

Based on a basis of the increased use of coal in the future at the same rate of increase of the last two or three years, Mr. Brooks said it had been estimated that the supply in the United States would be exhausted in from 100 to 150 years. Somewhere between the estimates of 150 and 5,000 years, he declared, the truth was to be found.

"If the supply will last 5,000 years, we don't need to bother about conservation for two or three thousand years, remarked Representative Madison, "but if it will only last 100 years we are up against it."

Mr. Brooks said he thought there had been too much alarm as to the exhaustion of the coal supply. Other factors of power are coming into general use and this in time will decrease the use of coal. Improved methods of consumption also are resulting in the decreased use of coal.

As a general proposition, the witness said he favored the leasing of coal lands, but he thought the Alaskan fields were too far away for the leasing system to be employed with advantage. He thought such a price should be put on the lands in Alaska, however, as to prevent speculative holding of the property and require its being worked.

BOGUS MUSICIANS IN MUSIC STANDS

New York, April 9.—Mayor Gaynor's recent order against "Dumny" musicians in the various music stands, where the city has paid for music while the bogus musicians went through the motion of playing, has resulted in the revelation of some secrets of the trade. According to the "confession" of an employee of a firm

that made a specialty of manufacturing instruments for the purpose of deceiving the public, a favorite scheme among the bands in the city parks was the introduction of the "second bass drum." At first the drum had merely a hole in the frame work and was used to carry the hunches of the bandmen. Then a bright idea struck the maker and the drum was built so as to hold in separate compartments Frankfurters, sandwiches and beer.

Then the bass horn, on similar style, was perfected, with automatic stopper, guaranteed to hold four gallons of liquid refreshment. The ordinary allotment, it is said, was two horns and a bass drum to a band.

According to the "confession" of an employee of a firm

JOHNSON'S ASSURANCE

Colored Champion Will
Be in Training by
May 1st.

New York, April 8.—The course of big things pugilistic took its way rapidly toward today with Jack Gleason, one of the Jeffries-Johnson promoters, en route to San Francisco, and John McKeon, who has been representing the Gleason-Richard interests here, on his way to Chicago.

McKeon will stay in Chicago until next Friday, and the fight enthusiasts say, will not make his way further west except in Jack Johnson's company.

Uneasiness on Tex Rickard's part regarding Johnson's plans is responsible for McKeon's trip to the far west with Johnson in tow. The New York agent has been instructed not to leave Chicago for the coast without being sure that Johnson is on the same train. Gleason, however, expressed himself confident on this point.

"There is no occasion for worry over Johnson," assured Gleason. "Rickard has only conducted one big fight, the Nelson-Gans fight at Goldfield, and he may be a trifle restless. Johnson has assured me that he will begin training near San Francisco before May 1st, and I believe him."

SUPPORTERS OF CARDINAL

Claim That Merry Del
Val Was Right in
His Demands

Rome, April 9.—The Vatican-Roosevelt incident is still causing animosity and discussion between parties. The party which has rallied to the support of Cardinal Merry Del Val insists that it matters not what consequences may ensue, as any other humiliation, as would have been the case had Mr. Roosevelt visited the pontiff and later called on the Methodists simply to demonstrate that he could not be treated as was former Vice-President Fairbanks.

The faction hostile to the papal secretary's attitude asks what the Vatican would think if next autumn, when the Eucharistic congress at Montreal, should open going to the United States be asked to dine with President Taft on the condition that he would not visit the apostolic mission house in Washington directed by Monsignor A. P. Doyle, which mission, like that of the Methodists in Rome, is engaged in converting persons to the faith it represents.

MILLIONS FOR ART COLLECTION

New York, April 9.—Disappointing low prices marked the sales yesterday in the Yerkes art collection, in the opinion of experts, although the aggregate of the purchases mounted high.

Thirty Oriental rugs, offered in the afternoon, brought \$285,250, said to be about half the real value. Thirteen pieces of tapestry swelled the afternoon total to \$338,900. Last night's sales amounted to \$168,100, bringing the flures to date up to \$2,034,450.

High prices included \$35,500 for a silk carpet from the Arebail mosque; \$32,000 for a 40-foot Persian state carpet; \$27,000 for the great mosque carpet of Ardebil; \$19,600 for a Bagdad carpet and \$17,700 for a tapestry, "Vulcan and Venus."

POLISH WRESTLER AN EASY WINNER

Chicago, April 9.—Stanislaus Zyzbisko had an easy time with Carl Winkelhofer in the feature match of the wrestling card at an amusement place last night, as did Yousif Mah-mout in his bout with Frank Wallace. Winkelhofer furnished a good exhibition of wrestling, holding out the first time until floored with a head-throat hold in 30:26. Zyzbisko took the second in 21:24.

Mahmout defeated Wallace in short order, putting him down first in 6:09 and following with a half Nelson in 3:02.

GREAT BRITAIN'S NINTH
DREADNAUGHT IS LAUNCHED

Clyde Bank, Scotland, April 9.—The Colossus, Great Britain's ninth battleship of the Dreadnaught type, was launched here today. The vessel has a displacement of 22,000 tons. The Colossus is the first battleship of Great Britain to be built on the American principle of rising tide turrets, so that the guns can be trained over six almost main armament. Ten 12-inch guns will be so placed that six can be trained ahead, eight astern and all ten on either beam.

WOMEN FAINT IN
BARGAIN DAY RUSH

Joplin, Mo., April 9.—In a "bargain day" rush in a dry goods store here

yesterday, twelve women fainted and were carried from the building.

The concern was declared insolvent recently and a forced sale was widely advertised. When 8 o'clock, the hour of opening, came yesterday, a crowd of shoppers stood in front of the doors and blocked the street. Soon after the doors were thrown open the store was jammed with a pushing, crowding mass of women. A number of women, unable to stand the crush, fainted, and it required the efforts of a dozen men to rescue them before they were trampled upon by the other shoppers.

EXPORT OF AUTOMOBILES.

Washington, April 9.—Next to France, the United States is the largest exporter of automobiles in the world, the value of exports in that line from that country in the calendar year 1909 having been \$8,667,397, according to the bureau of statistics. France exported in 1908, the latest year for which figures were available, automobiles to the value of more than \$24,000,000. Imports rank in the following order: United Kingdom, Italy and Germany.

JOS. SMITH TO ABDICATE

Head of Reorganized
Church to Relin-
quish Office

Kansas City, April 9.—Rumors that Joseph Smith, president and prophet of the Reorganized Church of Jesus Christ of Latter-Day Saints, will abdicate in favor of his son, Frederick M. Smith, are current here, where the annual conference of the church is in session.

Members of the church hold the opinion that President Smith, who is 78 years old, has found the cares of his office arduous during the last year and desires to retire from active work. Many attending the conference believe he will abdicate before the meeting closes.

The convention recently celebrated the fiftieth anniversary of the organization. Two years ago it was reported he would relinquish control, but he continued to preside. It is said, so that he might bring to conclusions the projects that lay before him when he assumed the leadership.

CACHE OF A GANG OF COUNTERFEITERS

Yonkers, N. Y., April 9.—Secret service men, who have been at work in this section for some weeks past, have unearthed a rich counterfeiter's cache on a farm near Highlands, N. Y. The stuff, which was found buried several feet beneath the surface of an old vegetable garden, includes several thousand sheets of paper, in which the silk threads of the government paper are cleverly imitated, a dozen boxes of blue and red ink, an old printing press and enough cartridges to destroy a small army. The plates used by the counterfeiters have not yet been recovered and the search for them will be continued.

The material is a part of the outfit used by the Lupo gang of Italian counterfeiters, who were recently convicted in New York and sentenced from 15 to 20 years in prison. Rumors that confederates of the counterfeiters were about to resume operations with the plates and material stored away by Lupo and his men were responsible for the activity of the secret service agents.

LAUNCHING OF A NEW DESTROYER

Quincy, Mass., April 9.—First to be launched of the new enlarged type of ocean-going torpedo boat destroyers, the destroyer Perkins was sent down the ways into Fore river today from the yards of the Fore River Shipbuilding company.

Mrs. Larz Anderson of Washington christened the boat. The Perkins is named after Mrs. Anderson's father, the late Commodore George H. Perkins.

Unlike previous destroyers, the Perkins will be able to keep at sea with the battleship fleet. Heretofore the little destroyer craft have been unable to venture far from the shore. The Perkins is the first vessel to be fitted with American reversible turbine engines, of which she will have two, capable of developing 8,000 horsepower each. Her boilers, of a new type, will be fed by oil fuel.

GREAT SHOW AT THE ORPHEUM TONIGHT

Salt Lake Herald-Republic, April 4th.—After last week's bill at the Orpheum every patron carried his hammer last night ready to knock hard enough to break the handle, but the first act had hardly started when we all felt a guilty sense of shame creep over us and we very sheepishly hid the hammers under the seat and sat back to enjoy one of the best bills of the season, and by "best" is meant all that the word implies according to Webster. The tears streamed from the eyes of the audience, not sad tears but glad tears, tears of joy.

The above good bill will be presented at the local Orpheum for the coming week starting tomorrow night. If you wear a grouch you will check it at the door.

GOVERNOR IN OREGON

Accompanies Jackling
Who Is to Buy the
Harriman Place

San Francisco, April 9.—Pelican lodge, at the head of Klamath lake, in southern Oregon, which the late E. H. Harriman purchased three years ago with a view to making it a summer resort, is to be sold, it is said, to D. C. Jackling of Salt Lake City, president and manager of the Utah Copper company and the Ray Consolidated Copper company.

In company with Governor and Mrs. William Spry of Utah, Mr. Jackling arrived here yesterday.

Mr. Jackling admitted that the Pelican lodge deal was nearly completed, but he refused to discuss the terms of the pending sale.

KITCHENER TO BE WELL RECEIVED

West Point, N. Y., April 9.—General Lord Kitchener, of Khartoum, who landed on the Pacific coast on Thursday, will probably visit New York and West Point before he sails for England. It is known here that Lord Kitchener has long desired an opportunity to visit the military academy and his coming is eagerly looked forward to by officers and cadets as an event in West Point history.

It was Lord Kitchener who advised the government of Australia to establish there a military academy patterned after West Point and in pursuance of this suggestion, Col. Bridges of the British army, recently visited the academy and spent a week studying the organization and administration here.

Lord Kitchener probably will go first to New York, where plans are being made for his entertainment by officers on Governor's island and other island fortifications. At West Point he will be given every opportunity to study and inspect the institution from every viewpoint.

MRS. HARRIMAN'S
COSTLY STABLE

Middleton, N. Y., April 9.—Mrs. Edward H. Harriman has begun the erection of one of the costliest stables in the United States at the foot of the incline railway leading to the Harriman estate at Arden. The stable will be fire proof. It will be lighted by electricity and contain a hot and cold water system and other conveniences, including a workshop, a garage and a hospital accommodating six horses.

PRESIDENT TAFT'S
KEYNOTE SPEECH

Washington, April 9.—President Taft's speech tonight on "Republicanism," before the League of Republican clubs is generally regarded as the first gun in the congressional campaign. The president is expected to tell what a Republican is and define what constitutes Republicanism. The formal will be represented as will be Republican organizations of various sections of the country.

WILL CARRY
TWO PASSENGERS.

Memphis, April 9.—Glenn H. Curtiss, the Hammond sportsman, N. Y. aviator, announces that he will attempt to carry two passengers late this afternoon in his new eight-cylinder racing biplane with which he will try to retain the Gordon Bennett trophy at the next international meet. Mr. Curtiss made two successful flights with passengers yesterday.

RUELBACH HAS
DIPHTHERIA

St. Louis, April 9.—The physician attending the baby of Reubach of the Chicago National league team, who is ill with diphtheria, announced today that Ruebach had caught the disease.

Ruebach practiced with the local team here Thursday.

SECOND SALTON
SEA IS FORMING

El Centro, Cal., April 9.—Cattlemen from La Guna Salada, Mexico, report that the Colorado river is rapidly forming a second Salton sea in lower California. A party of engineers are preparing to visit the little known region said to be inundated to investigate.
